NOTE: In order to complement a broad variety of contemporary and traditional home décors, we mix our stains in tones and shades of browns, from light to dark and many shades in between. Reed is a wonderful palette upon which to develop these colors and we prefer to highlight the natural beauty of the woven material rather than cover it up. Give us a general description of the shade range you prefer. If you have a specific color you are trying to match, please contact us for a consultation prior to placing your order.

Please Call or Email Us With Any Questions
